

Niels Pichon

AI Research Engineer and Technical Leader

niels.pchn@gmail.com · +33 664999973

300 Chemin des Carrières, 69270 Fontaines-St-Martin, France

EXPERIENCE

Onibi, Lyon, France — *AI Director & Associate Game Director*

June 2025 - PRESENT

Co-Leading a team of 15 persons in a game studio, leading the development of a complex AI solution for video games, involving graph analysis, 3D voxel image generation (RF, SFT, Distillation, GRPO), AI agents, data curation, and image captioning (SFT for 3D images understanding).

Onibi, Lyon, France — *Senior AI Engineer*

February 2024 - June 2025

Started the AI R&D effort that led to the current position's project.

TheraPanacea, Paris, France — *Senior AI Engineer*

April 2022 - October 2023

Developed a family of models for 3D medical image segmentation (ViT, UNet, DiNo) , optimized inference code, and built a library for DL experimentation in medical imaging.

Hypermile, London, UK — *Computer Vision and ML Engineer*

February 2021 - April 2022

Trained models for autonomous truck driving using monocular camera footage and sensors. Developed software for vehicle communication (CANBUS, MISRA-C).

Graphcore, Bristol, UK — *Customer Support Engineer in Accelerated Machine Learning*

January 2020 - February 2021

Accelerated Deep Learning models for customers and researched dynamic sparse training for LLMs.

EDUCATION

Ecole Centrale De Lyon, Lyon, France — *Engineering Degree (MSc equivalent)*

September 2014 - September 2019

Mechanics, Aerodynamics, General Physics, Electronics, Mathematics, Software engineering, Computer vision, Signal Processing, Automation, Information theory

Danish Technical University, Copenhagen, Denmark — *MSc in Physics and Nanotechnology*

September 2017 - September 2019

Quantum Mechanics, 2D materials, Supra conductors physics, Deep Learning, Photonics, Cleanroom experimentation, Ultra small scale physics and mechanics, Electronics fabrication

SKILLS

Programming: Python, C#, C++, JS / AI: Pytorch, Deep Learning, Computer Vision / Tools: Git, Docker, Unity, Unreal Engine, CG (Blender) / Soft Skills: Communication, Creativity, Quick Learner /

Languages: French, English
